## **Riverside County: Cool Centers close after summer-long service**

The 50-plus cool centers throughout Riverside County officially closed Oct. 15 after providing more than 12,800 residents a way to avoid the heat.

The centers, coordinated by the Community Action Partnership of Riverside County, had been operating since June at community centers, public buildings and other facilities to give residents a respite from the high temperatures during the summer.

Community Action Partnership is part of Riverside University Health System –Public Health.
