

COUNTY OF RIVERSIDE DEPARTMENT OF PUBLIC HEALTH

Ebola Virus Disease (EVD) Triage Flow Sheet

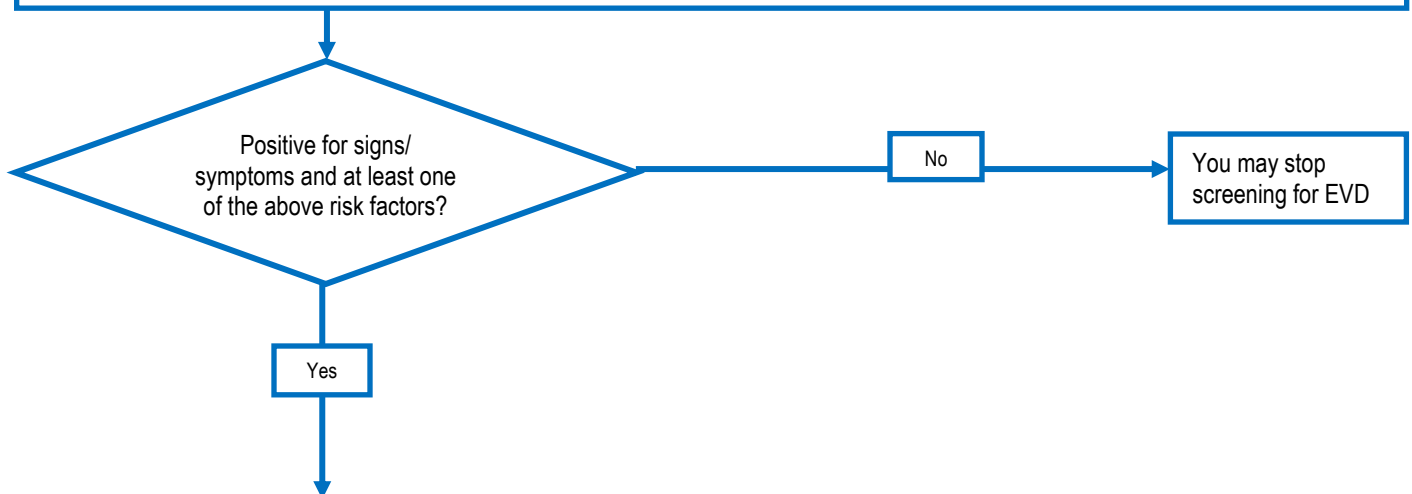

For Educational Settings

Signs and Symptoms and Epidemiologic Risk Factors

- Fever > 38.6 C or 101.5 F and any of the following:
 - Malaise
 - Myalgia
 - Headache
 - Diarrhea, vomiting, abdominal pain
 - Unexplained hemorrhage

AND one or more of the following epidemiologic risk factors within the past 3 weeks before the onset of symptoms

- Residence in—or travel to—an area where EVD transmission is active (see info below for W.H.O. or CDC for most current “Hot Zone” info) Currently Liberia, Sierra Leone, Guinea, and Nigeria
- Contact with blood or other body fluids of a patient known to have or suspected of having EVD
- Direct handling of bats, rodents, or primates from disease-endemic areas

Immediately:

- Place the student in a separate room with the door closed. Limit the number of individuals interacting with the person.
- Complete the Ebola Exposure and Risk Assessment Tool. Fax to Disease Control at: (951) 358-5102.
- Notify Disease Control at: (951) 358-5107 - After Hours: (951) 782-2974, request to speak with the Public Health second call Duty Officer.
- Call the parents/guardians of students ≤ 17 years old, and asked them to pick up the student and take him/her for medical evaluation.
- Place symptomatic students residing on campus housing with roommates in separate living quarters; refer for medical evaluation
- Send adult students and staff home and instruct them to contact their healthcare provider.
- Clearance by their healthcare provider and by the Department of Public Health is required prior to the person returning to the campus.
- Log names and contact information of everyone who has come into contact with the person (e.g., school nurse, health technician, roommate).
